

Water Restrictions Exemption for filling a Swimming Pool/Spa

Water Conservation Plan Application

Introduction

Under Clause 6 of Western Water's By Law No 05/01 during restrictions a customer will need Western Water's approval before filling a new pool/spa, or emptying and refilling an existing pool/spa. To gain approval during any stage of restrictions, Western Water will require the customer to prepare a Water Conservation Plan. This plan will set out proposed water savings that are to be achieved during a one-year period, stating the volume of water saved equivalent to the volume of water used to initially fill the pool.

Customer Details

Name:

Address (where pool is to be filled):

Name of Pool Builder:

Contact Number – Home:

Bus:

Mobile:

Notes:

- As a demonstration of the compliance with your Water Conservation Plan, please provide either:
 - A copy of receipts of products purchased, or
 - A Plumbing Industry Commission (PIC) certificate of Compliance
- Western Water reserves the right to undertake random audits of compliance with your Water Conservation Plan.
- If you have already fitted the water saving devices listed previously, your plan may still be approved as per clause 6 of the By Law.
